

WHY SHOULD YOU CONSIDER INDIVIDUALLY OWNED MORTGAGE INSURANCE?

Do you own a home or other residential property? Have you bought insurance from the institution that holds your mortgage? If so, there may be better insurance options.

As a Financial Advisor, I can provide information on financial products that can best meet your unique needs. I have attached for your reference, an information sheet on the benefits of individually owned mortgage insurance compared with the insurance offered at your lending institution.

I would be happy to answer any questions you may have, or if you would like, to provide a quick, no-obligation quote for easy comparison.
