

We all share the same desire of wanting our family and loved ones to be taken care of, and it's one of the reasons why having a life insurance policy in place is of such importance.

There is a simple and straightforward solution to obtain **“No Medical” life insurance with up to \$750,000 in coverage**. It is quick and easy to apply for either permanent or term plans immediately without medical tests, needles or doctor's reports. No Medical life insurance is an extremely convenient approach and can provide peace of mind for you and your family.

Should you have serious health issues, you may want to consider Guaranteed Acceptance with coverage up to \$50,000. It is a simple, permanent life insurance solution and you will not be turned down for coverage - no matter your health condition. It is generally purchased by individuals who are not eligible for other plans of life insurance.

These No Medical life insurance options and coverage amounts are available through Canada Protection Plan, a leading provider in No Medical and Simplified Issue Life Insurance. And, payments start in the second month – applicable on monthly payment plans only. For full details on all of their plans, benefits and what may be the best choice to suit your individual needs, I would be happy to answer any questions that you may have. I have enclosed a brochure for you to review as well.
